

LIVE SEMINAR

30-Hour Cal/OSHA Outreach Training Program

THIS SEMINAR AT A GLANCE:

Earn your Cal/OSHA 30-hour completion card with 5 days of in-depth training:

Increase understanding of workplace safety initiatives and get up to speed on all of Cal/OSHA's rules, regulations and guidelines:

- Become familiar with hazard identification, avoidance, control and prevention
- Know key differences between federal and Cal/OSHA regulations
- Prepare for Cal/OSHA inspections – what to expect, how to prepare, abatement procedures
- Protect your organization from costly fines, penalties and legal action due to Cal/OSHA non-compliance issues
- Gain valuable information to help maintain safety standards, establish company-wide “buy-in” and create effective training programs
- And so much more!

Who should attend?

- Building and facility managers
- Health and safety managers
- Human resources personnel
- Business owners
- Managers and supervisors
- Warehouse Managers
- Team leaders
- Legal counsel

30-Hour Cal/OSHA Outreach Training Program

S E M I N A R S U M M A R Y

Protect employees from on-the-job hazards and your organization from costly fines and penalties

Get the practical, hands-on experience needed to pinpoint hidden or overlooked safety and health issues, address them and become fully compliant with Cal/OSHA's general industry standards. Your organization will benefit financially as workers become more productive while less time is lost to injury and illness.

How will my company benefit?

A healthier, safer work environment means employees will enjoy their work more, use their time more productively and feel safer and more comfortable while on the job. Lost hours due to illness and injury will diminish, workers will file fewer injury and illness claims and you'll be less likely to incur fines or penalties due to Cal/OSHA violations.

Is not being in compliance with Cal/OSHA Regulations costing your organization?

According to the United States Department of Labor, businesses spend \$170 billion a year on costs associated with work-related injuries and illnesses. This can contribute to decreased employee morale, reduced productivity and higher on-the-job stress, while leading to increased workers' comp claims, higher insurance premiums, retraining costs, absenteeism and lower-quality products and services.

OSHA Requirements

- A tablet, laptop or desktop computer with keyboard, video camera and microphone capabilities.
- Attendees must participate and be visible to the entire class for all of the 2-day training event.
- Internet connection, broadband wired or wireless (3G or 4G/LTE).
- 2-way audio: speakers and a microphone – built-in or USB plug-in or wireless (note: students can use the microphone and speakers built into a tablet, laptop or desktop computer. Headphones or earphones with a microphone are also recommended, but not required.)
- 2-way video – built in or USB plug-in video web camera (note: students can use the video camera internal to their device or use an external device).
- PDF viewer on device.
- Smartphones will not be permitted as a device to attend this virtual session.

PROGRAM AGENDA

Welcome and Overview of the Week's Training

- Employers covered by the Cal/OSHA Act
- Exclusions from coverage
- Cal/OSHA Training Institute Introduction to Cal/OSHA
- Types of Cal/OSHA standards and how they are organized
- Internal and external resources you can rely on for help
